

Name: _____

Date: _____

Firefighter

Directions: Read the passage. Then answer the questions from the reading.

Firefighters are rescuers trained to put out dangerous fires that threaten people and property, to rescue people from car accidents, burning buildings and other situations.

Other than putting out fires, the goals of firefighting are saving lives, saving property, and protecting nature. Firefighting can be a dangerous occupation. Safety skills are regularly practiced throughout a firefighter's career. Firefighters work closely with other emergency response agencies, most particularly police departments.

Fire fighting has several basic skills: prevention, self protection, rescue, protection of property and fire control.

1. Firefighters are mainly trained to? _____
2. Can firefighting be dangerous? _____
3. The five basic skills of firefighting are? _____
4. Do firefighters rescue people from car accidents? _____
5. Name another emergency response agency that firefighters work closely with? _____
