

Name _____

Date _____

Happy Groundhog Day!

When is Groundhog Day ?

Groundhog Day always falls on February 2nd. The popular myth is, if Punxsutawney Phil sees his shadow at Gobblers Knob in Punxsutawney, Pennsylvania on the morning of Groundhog Day, Phil will go back in his hole, and we'll have six more weeks of winter. If it's cloudy outside, and he doesn't see his shadow, spring will come early.

Did Punxsutawney Phil see his shadow? _____
