

Find the Perimeter of the Polygon

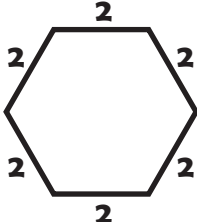

Directions: Using the given measurements, find the perimeter of each polygon. Show your work!

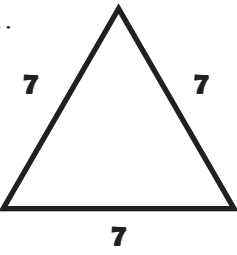

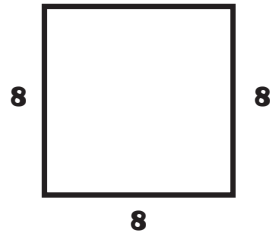

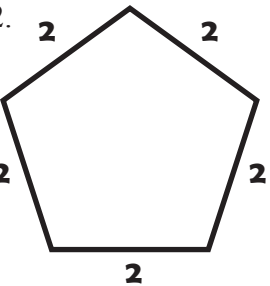

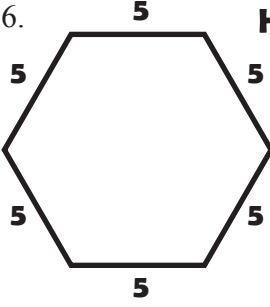

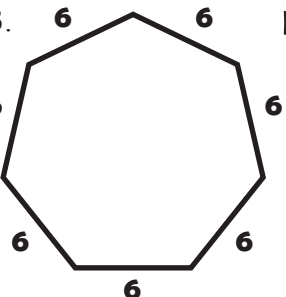

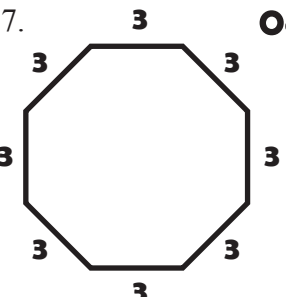

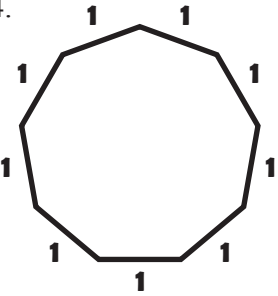

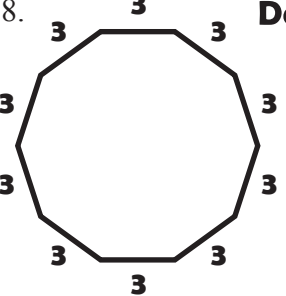

<p style="text-align: center; font-size: 1.2em;">Example: Hexagon 6 Sides</p>		<p>To find Perimeter: Sum of all the sides</p> <p>Perimeter: $2+2+2+2+2+2 = 12$</p>
--	---	--

<p>1. Triangle - 3 sides</p>  <p>P = _____</p>	<p>5. Quadrilateral - 4 sides</p>  <p>P = _____</p>
<p>2. Pentagon - 5 sides</p>  <p>P = _____</p>	<p>6. Hexagon - 6 sides</p>  <p>P = _____</p>
<p>3. Heptagon - 7 sides</p>  <p>P = _____</p>	<p>7. Octagon - 8 sides</p>  <p>P = _____</p>
<p>4. Nonagon - 9 sides</p>  <p>P = _____</p>	<p>8. Decagon - 10 sides</p>  <p>P = _____</p>

Find the Perimeter of the Polygon

Directions: Using the given measurements, find the perimeter of each polygon. Show your work!

Example: Hexagon 6 Sides		<p>To find Perimeter: Sum of all the sides</p> <p>Perimeter: $2+2+2+2+2+2 = 12$</p>
---	---	--

<p>1. Triangle - 3 sides</p>  <p>P = 21 _____</p>	<p>5. Quadrilateral - 4 sides</p>  <p>P = 32 _____</p>
<p>2. Pentagon - 5 sides</p>  <p>P = 10 _____</p>	<p>6. Hexagon - 6 sides</p>  <p>P = 30 _____</p>
<p>3. Heptagon - 7 sides</p>  <p>P = 42 _____</p>	<p>7. Octagon - 8 sides</p>  <p>P = 24 _____</p>
<p>4. Nonagon - 9 sides</p>  <p>P = 9 _____</p>	<p>8. Decagon - 10 sides</p>  <p>P = 30 _____</p>
